

Visualization 1: Pie and Bar Charts illustrating the distribution of comment sentiments across a wide array of Udemy Courses.

1) Observations:

*** Positive Sentiment Dominance: The pie chart shows that the majority of comments (88.31%) are classified as having a positive sentiment, indicating a very high level of overall satisfaction with the courses or products.

*** This suggests that the company is delivering a positive experience that resonates well with a significant portion of its customers.

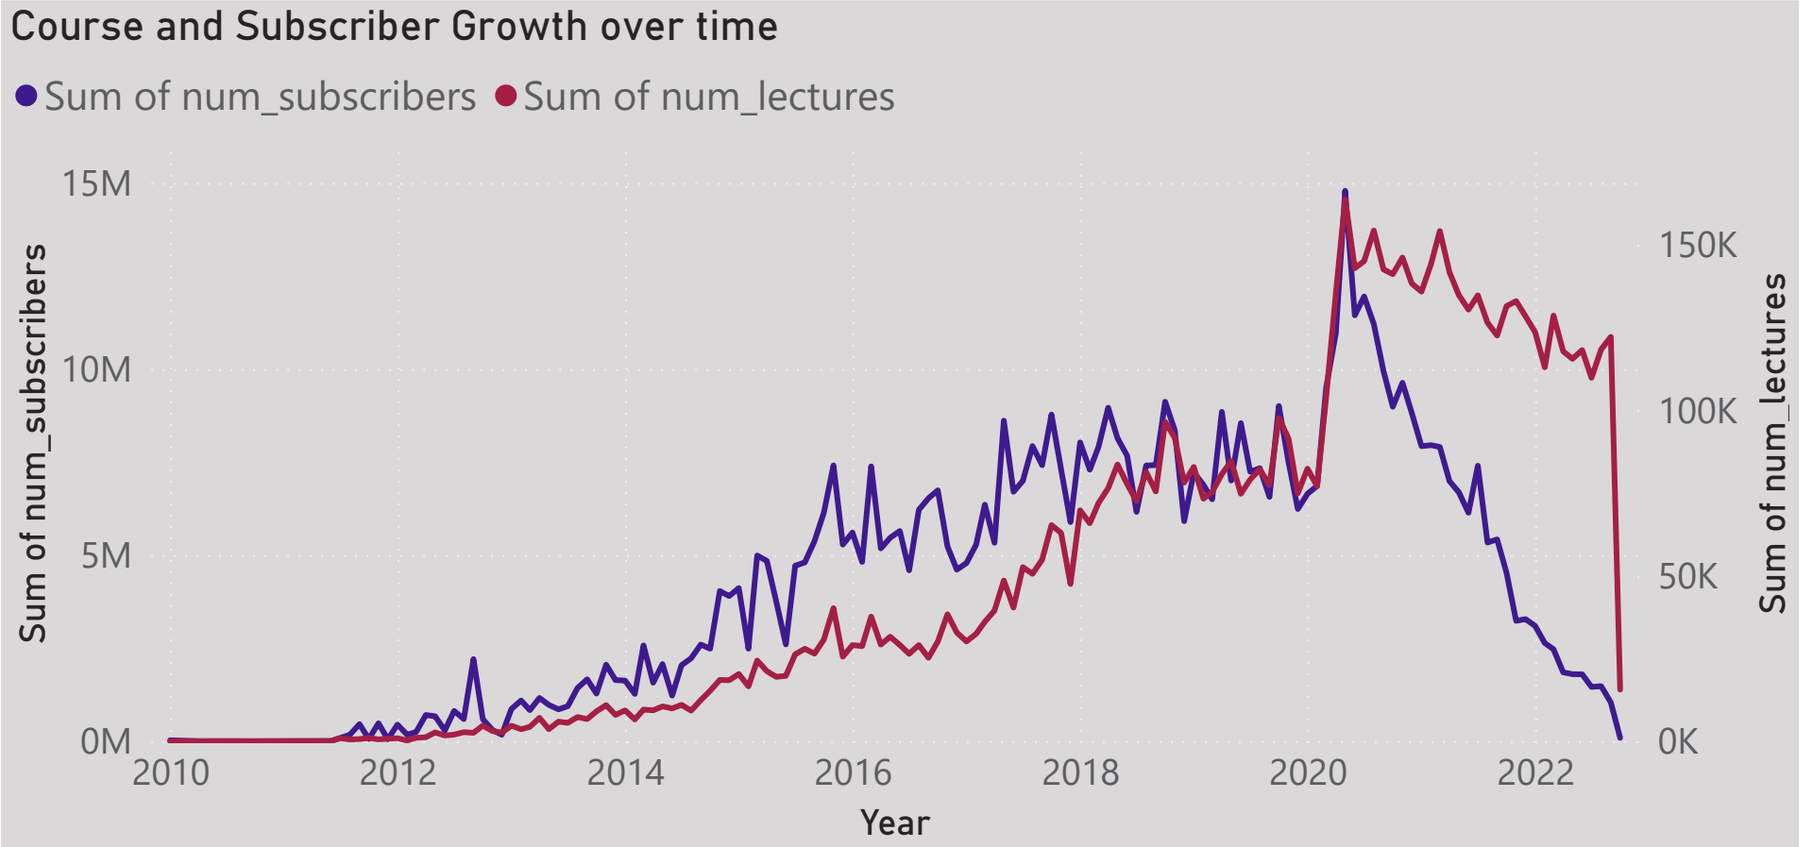

Visualization 2: Stacked Bar Chart - Paid vs. Free Courses by Category

Insights: This visualization reveals the distribution of paid and free udemy courses across different categories. It can help us identify categories dominated by paid courses or with a good mix of both in addition to the paid/free ratio in each of them.

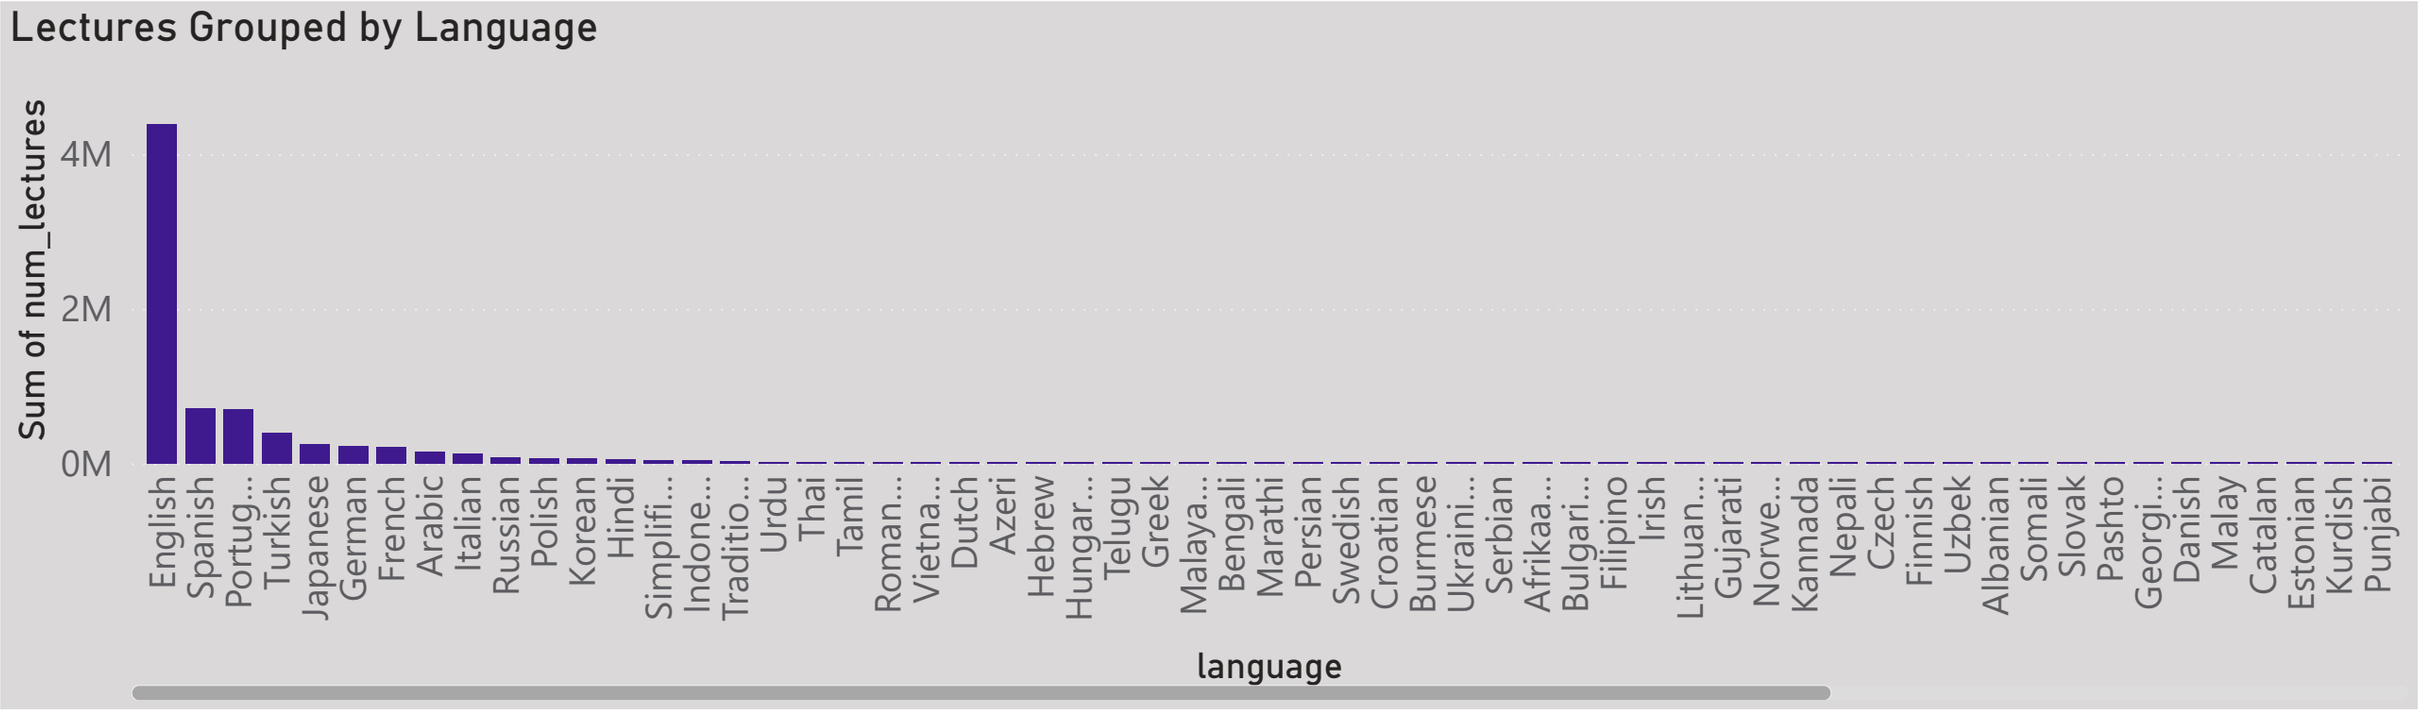

Observations:

1) In **all categories**, there are significantly more paid courses than free ones with number of free

Visualization 3: Timeline (Line Graph) - Growth of Subscribers and available Courses over time

Insights: This visualization helps us track the enrollment and publishing behavior over time. We can identify periods of high learning or course production activity or see if there are trends in the types of courses people enroll in and the correlation between the number of enrollments and the number available courses or trending courses published in the same time period as the enrollments.

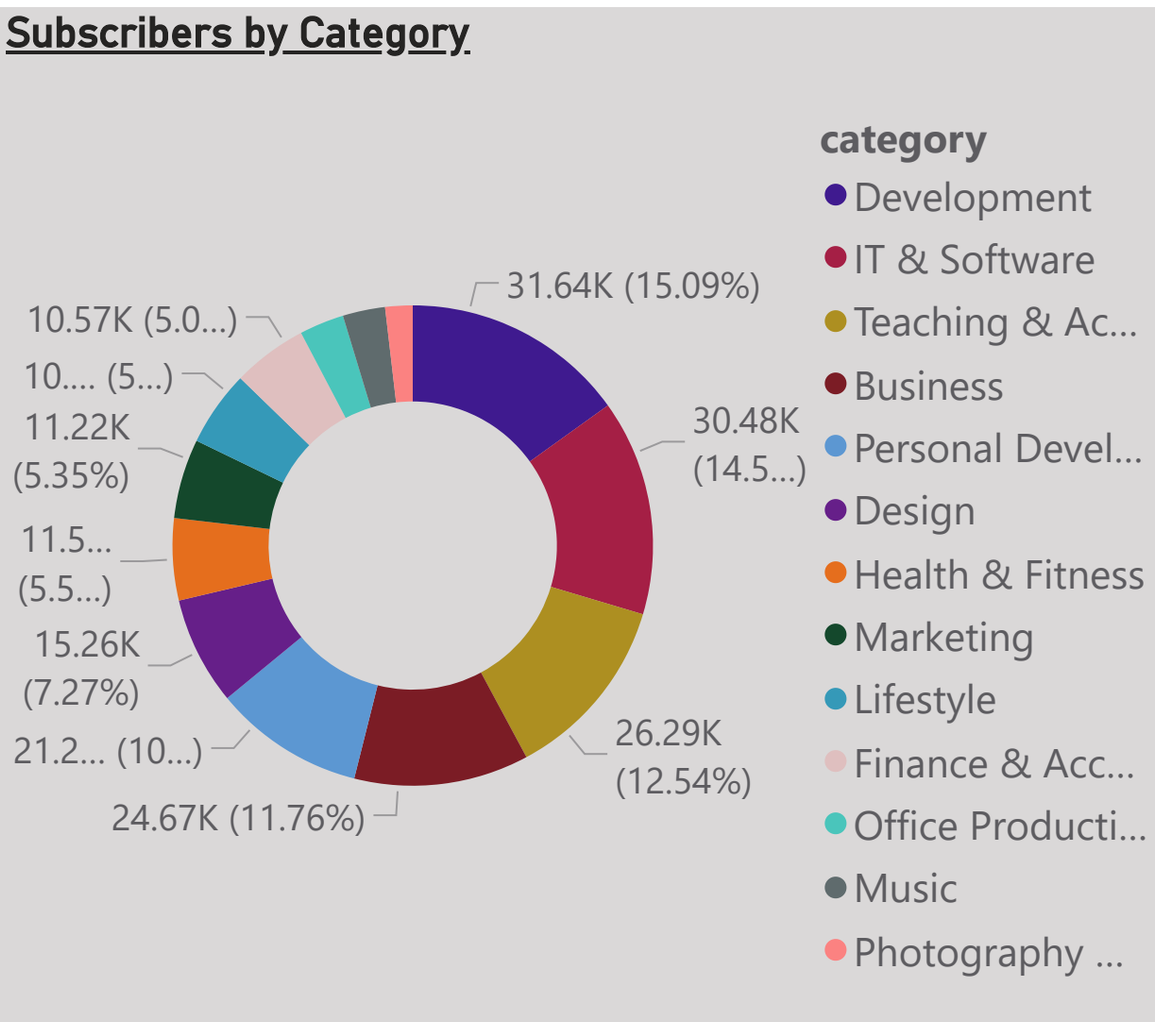

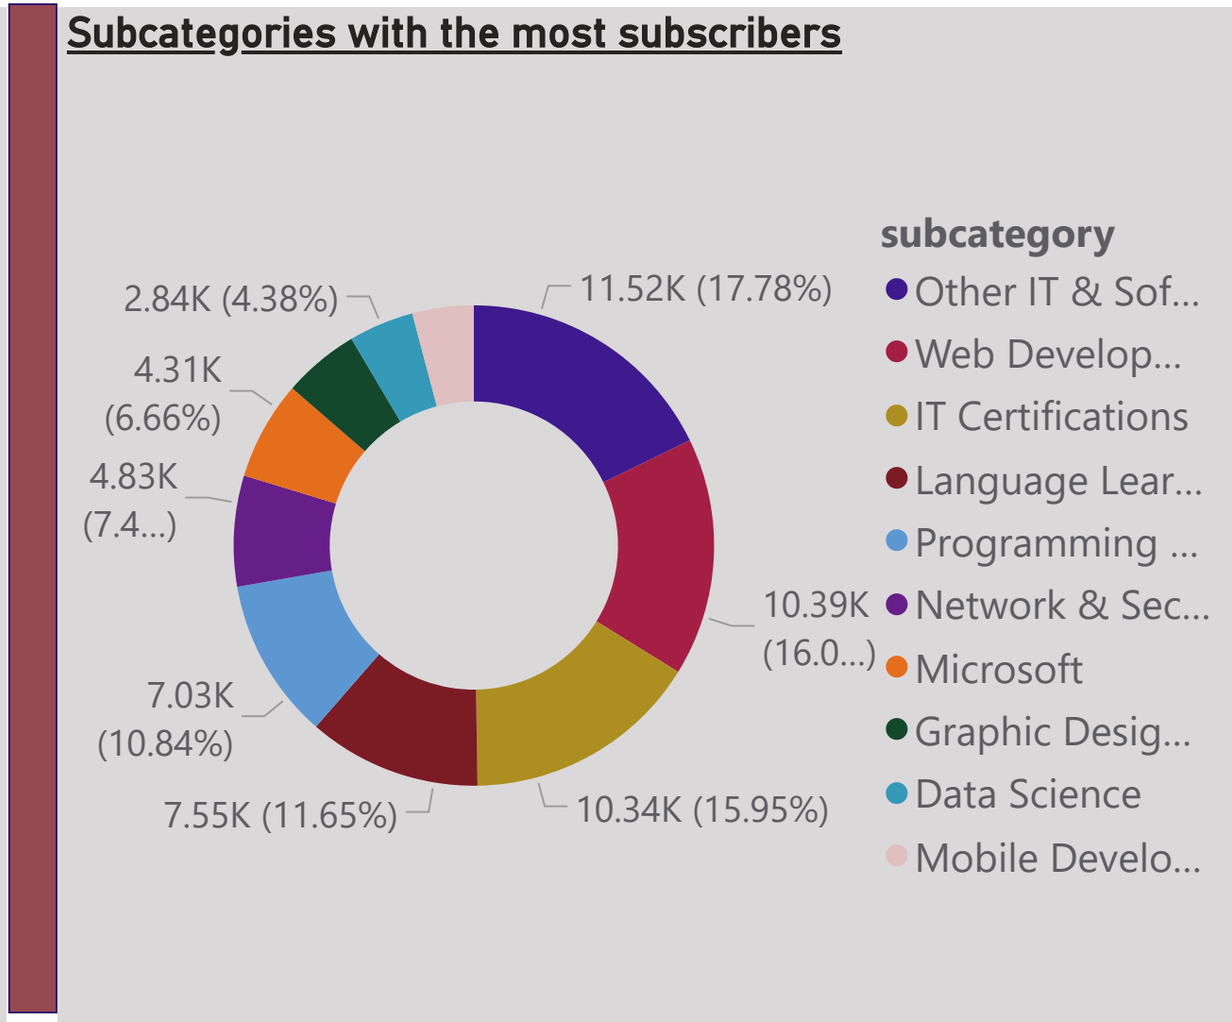

Visualization 4: Column Chart - Lectures Grouped by Language

Observations:

English Dominates: The majority of the courses (around 70%) are offered in English. This highlights the dominance of English as the primary language for Udemy courses, which aligns with its global reach and diverse user base.

Spanish Courses Have Significant Presence: Spanish is the second most prevalent language, constituting a considerable portion (around 10%) of the courses. This suggests a strong demand for Spanish learning content on the platform which is expected considering the number of native spanish speakers and spanish speaking countries in the world.

Visualization 5: Donut Charts - Illustrating the number of unique subscribers by category and subcategory
Overall Trend:

1) Observations:

1-1) Category Breakdown:
